Laerdal Services Solution

Teaching with LLEAP Course

This one day course for up to eight participants is delivered at your facility by our Field Service Specialist or Educational Service Specialist.

If you want to learn more about the LLEAP Learning Application and how to start using your LLEAP simulator system in your education, this is an appropriate course for you. The course is aimed at those who will be responsible for running simulations and builds on the Getting Started courses.

LLEAP = Laerdal Learning Application

Agenda of the Teaching with LLEAP Course:

1. Introduction to LLEAP
2. Understanding Laerdal Simulation Home
3. Starting Simulation with LLEAP
4. Manual Mode Operations
5. Automatic Mode - Pre-programmed Scenarios
6. Automatic Mode - Physiological Patient Cases
7. Teaching with LLEAP
8. Session Viewer/ SimView Mobile
9. Using SimMom with LLEAP
10. Considerations
